Dear Friends,

An Extremely Urgent Appeal!

“Let us help Sri Lanka breathe”

2.5 million Rupees project by Can Lanka Business Association

with the help of the community

Sri Lanka is presently facing a rising wave of Covid-19 infections, caused by the Delta variant. As of today, an average of 200 Sri Lankans is dying. So, the urgency to help our fellow Sri Lankans is now or never!

The current population in Sri Lanka is 22 million and the country has only 650 intensive care beds, compared to 2,300 intensive care beds in the province of Ontario with only a 14.5 million population.

Therefore, we decided to raise funds to purchase urgently needed medical supplies and donate to hospitals. We have already received formal request letters from Rathnapura, Badulla, and Kalubowila hospitals for the required items needed to treat Covid-19 patients.

We are planning to raise more than **2.5 million LKR** in total with your help for this noble cause. **As the first step, Can Lanka Business Association is donating 1.1 million LKR**

You can add your valuable contribution using any of the following methods.

- 1) E transfer to – info@canlankabusiness.com
- 2) Handover cash / cheque to any Can Lanka member.
- 3) Write a cheque payable to “Can Lanka Business Association” and mail to 1274 Warden Avenue, Toronto ON MIR2R6, Canada (Please indicate your phone and email address)

You will receive an official acknowledgement for your donation. We are committed to sharing outcome of this operation with absolute transparency. We are looking forward for your generous donations for this worthy project.

If you need more information or need to contact a CanLanka member please visit our website.

Let's help Mother Sri Lanka to save our own peoples lives!
